XXL® BLACK Connection Master

LF audio RCA phono cable

Very exclusive analogue cinch cable for cabling high-quality home hi-fi and home-cinema systems. The inner conductorÂ´s revolutionary design ensures previously unheard of low intrinsic resistances with extremely high levels of purity. Even the monocrystalline transitions in the cast HPOCC are filled with pure silver during the „Silver Gap HPOCC“ production process. This produces an almost seamless structure in the conductor and creates the ideal electrical conditions for the transmission of signals. Full-metal silicone-pin screw plugs plated with 24-carat gold connect this valuable inner conductor practically resistance-free to any type of audio component in home hi-fi or home-cinema systems. The high technical requirements are also satisfied by the cableÂ´s exterior: The plugsÂ´ exteriors have been fitted with genuine leather and are really pleasant to handle.

Designation	Art. No.	Unit	Colour
Black Con. M 50	13830	0.5 m	black
Black Con. M 100	13831	1 m	black

CONNECTIONS	SIGNALTYPE	SIGNALDIRECTION
2xCinch 2xCinch	Audio	Bi-Directional

Features

- ✓ fourfold shielding
- ✓ Robust plastic sheathing
- ✓ Solid full-metal plug
- ✓ 24 ct gold plated plug
- ✓ HPOCC® - monocristalline copper
- ✓ Solid metal plug with silicon-pin
- ✓ rubber inlays
- ✓ For powerful bass reproduction
- ✓ Reliable contact

Technical Data

Inner conductor material	HPOCC® - monocristalline copper
Cable sheathing	fabric sheath
Shielding quantity	fourfold shielding
Shielding material	2 x aluminium foil + 2 x copper braid
Plug design	Full-metal screw-type plug
Special length	special lenghts
Cable geometry	Round
Plug type	Straight

HPOCC® inside | 4x Shielding | 24 ct | 100% Contact
